

HIGH SPEED WORKBOATS™

HB 1111 FRDC

HB 1111 FRDC, a 11 metre Fast Rescue Daughter Craft is designed, built and equipped to comply with rules and regulations for such vessels. Our Daughter Craft is very solid, and the planning hull has a deep V-hull construction. Fitted with twin waterjets, the boat has exceptional manoeuvrability and speed in all weather. Hundreds of boats are delivered to the offshore sector, and the performance is well proven. The crew is seated in dampened seats with six-point seating belts.

TECHNICAL DATA

Overall length: 11,66 metres Length hull: 10,51 metres Breadth extreme: 3,5 metres Breadth hull: 2,92 metres

Draught: 0,7 metres

Max speed with 3 persons: 33-36 knots

STANDARD ENGINES

Twin Volvo Penta, Yanmar or similar, 370-440 HP

Hamilton waterjets or similar

BOAT CONSTRUCTION

Hull is made from marine aluminum and certain compartments are filled with buoyancy foam. Superstructure is made from GRP. The fender is constructed of special fender foam and is protected with a tailor-made PVC cover. The FRDC is fitted with single point lifting system, with an approved off-load release hook. We are ISO 9001:2015 certified.
