HUKKELBERG  BOATS™  NORWAY

FAST

QUALITY AND SERVICE SINCE 1938™

Back in the fifties, Brødrene Hukkelberg was the first yard in Norway to begin experimenting with aluminium welding and today, by embracing the newest technology, is still at the leading edge of aluminium boat design in Scandinavia.

Our range of 9-15 metre vessels are exported world-wide, providing end users with boats of immense strength, durability, quality and exceptional handling and performance.
